

Sustainable living refers to the ability to meet present needs without compromising needs of future generations...

Taranaki

Sustainable

Living Fair

2008

**Exhibits – Demonstrations – Speakers – Food – Prizes
Entertainment for the whole family.**

Come to the fair and see what it's all about.

**Meet the many people in our community who want to take a step towards living in
a more sustainable Taranaki.**

FIND OUT HOW EASY IT IS TO DO SOMETHING.

- Household design and building
- Waste management and recycling
- Solar, wind, hand energy systems
- Alternative transportation strategies
- Biointensive farming, permaculture
- Food
- Transition Towns, creating our own path towards sustainability
- Enviro schools
- Energy-efficient and environmentally-friendly home & garden products and ideas.

TARANAKI

like no other
